G. B. TAYLOR,
City Clerk.

AGREEMENT "A."

This indenture made the day of A. D. 1899, between the Corporation of the City of Greenwood, hereinafter for itself, its successors and assigns, called the City of the first part; and the Greenwood City Water-works Company, hereinafter for itself, its successors and assigns, called the Company, of the second part.

Whereas the said Company is desirous of exercising certain powers of lighting by electricity, granted to it under and by virtue of an Act of the Province of British Columbia, entitled "Greenwood City Water-works Company Incorporation Act, 1897," and for that purpose to use the streets, alleys, lanes and highways of the said City as hereinafter set forth.

Now this indenture witnesseth that in consideration of the premises and of the covenants hereinafter contained, the City hereby covenants with the Company, and the Company hereby covenants with the City, as follows:

1. That in consideration of the covenants on the part of the said City hereinafter contained, and of the right, powers and privileges hereinafter granted, the said Company for itself, its successors and assigns, covenants and agrees to and with the said City and its successors, that the said Company will within six months from the final passage of the by-law authorising and confirming the execution of these presents, erect, install, equip and place in operation a complete electric light system for the use of the public, and the said Company hereby agrees to furnish to any and every citizen of the City of Greenwood, requiring the same, at any and all points within the city, electricity for the purpose of supplying light at fair and reasonable charges for the use of the same.

Fair and reasonable charges shall be deemed to be as follows:—

For private houses, \$1.00 per month per 16 candle power lamp.

For business houses, \$1.50 per month per 16 candle power lamp.

Arc lights are to be supplied to the said City and installed as the same may be required, at the rate of one hundred and fifty dollars (\$150.00) per year per arc light, to be kept lighted from dusk to dawn during each and every night in the said term from the time of the erection of the same, as the said light shall be required.

Provided that after five lights are in operation, in the event of the Council of the said City requiring the Company to erect any arc lights at a distance of more than two blocks as shown by a registered map of the city, from any light already located and in operation, the said Company shall erect and operate the same without delay, but the city shall pay any extra cost incurred in the wiring and erection of such light over and above what it would cost the Company to erect the same if the said light had been located within two blocks from any such light in operation as aforesaid.

2. And for the consideration aforesaid and mentioned in the last preceding clause and on payment of an annual licence fee of fifty dollars, the City doth grant to the said Company for the period of twenty years from the date hereof, the right, privilege and franchise under the supervision of the City Engineer for the time being and at all times, to erect poles and lay overhead or underground wires on, along, or under any of the streets, roadways, lanes, passages, and other highways and places of the said City of Greenwood, for the generation, supply, transmission, use or sale of electricity, for light, power or other kindred purposes, and for the purposes of erection, laying, construction, alteration or repair of such poles and wires to enter upon any such streets, roadways, lanes, passages and other highways and places, and to make such excavations and to do such other acts and things as may be necessary. The Company, nevertheless, covenants and

agrees, in so far as it may be practicable, to use the lands and alleys for the aforementioned purposes.

And the Company further covenants and agrees in exercising the foregoing privileges, to confine, so far as may be practicable, the erection of poles on one side of the street only.

3. That the wire poles shall not be less than twenty-five (25) feet in length and six (6) inches in diameter at the top, and the arc light poles not less than forty-five (45) feet in length, and eight (8) inches in diameter where the arm is affixed to the poles; said poles to be clean, straight, pointed and set firmly in the ground, and the said Company will at all times during the erection of any poles, the stringing of any wires, and the construction of any buildings or works, and during repairs or alterations of the same, take proper care and precaution for the safety of foot and other passengers, and of horses and carriages, passing along the said streets, or any of them, on which erection, laying, construction, alteration or repair is being performed, and will not interfere with or impede the public right of travelling on or using the same, or in any way obstruct the entrance to any door or gateway, or the free access to any building. That after the erection, laying, construction, alteration and repair, the said Company shall and will repair and mend the said streets, and leave them in their former condition in so far as the same is compatible with such erection, laying, construction, alteration and repair, subject to the approval of the City Engineer for the time being, who shall direct the manner in which the arc lights throughout the city shall be suspended.

4. The said Company agrees to indemnify and save harmless the said city from all actions, claims, demands and costs that may be at any time during the continuance of this agreement made against the said city by reason of the Company erecting poles or laying underground or stringing wires along, under, or over any of the streets, lanes, passages or highways of the city, or by reason of the operation of the Company's plant, and from and against all actions, proceedings or suits at law, and costs thereof, that may be brought against the said city by any person or persons by reason of the said Company so breaking up any streets, lanes, passages or highways and erecting poles and laying wires.

5. At the expiration of the term hereby limited the city may, after giving six months' notice prior to the expiration of the said term, assume the ownership of the whole of the lighting plant and apparatus of the said Company, and all real and personal property in connection with the working thereof, on payment of their value, to be determined by arbitration, and in case the city should fail in exercising the right of assuming the ownership of the said lighting plant and apparatus at the expiration of the term limited as aforesaid, the city may at the expiration of every five years to elapse after the term hereby limited, exercise the same right of assuming the ownership of the said lighting plant and apparatus and of all real and personal estate thereunto appertaining, after six months' notice, to be given within the six months immediately preceding the expiration of every fifth year as aforesaid, and on payment of their value to be determined by arbitration.

6. Should the Company at any time cease to exercise the privilege hereby granted to it for a period of three months it shall forfeit the entire property within the city limits to the benefit of the corporation.

7. If within three months after the passing of the by-law the Company should have failed to proceed with these works in such manner as to satisfy the City Engineer for the time being, or other officer appointed by the city, that they will be completed within the stipulated time, the Corporation may give fourteen days' notice of its intention to annul the privileges hereby granted, and if the works are not then proceeded with in a satisfactory manner the city may by resolution annul the privileges accordingly.

8. Nothing herein contained shall be construed to grant any exclusive privilege or franchise to the Company. And the city may grant like powers and privileges to any other company asking for the same, or the city may at any time erect, equip and install an electric system which shall be the property of the municipality.

9. Wherever in case of fire it becomes necessary for its extinction or the preservation of property that the poles or wires should be cut, the cutting under such circumstances of the poles or any wires of the Company under direction of the chief officer in charge of the fire brigade shall not entitle the Company to

demand or claim compensation for any damage thereby incurred.

In witness whereof the said City has caused the corporate seal thereof to be hereto affixed, and the signatures of the Mayor and the City Clerk thereof to be hereunder written, and the said Company has caused the corporate seal thereof to be hereto affixed and the signatures of the President and Secretary thereof to be hereunder written.
